## WHEAT STILL GOING DOWN.

DECEMBER MADE A NET LOSS OF 1 1-2e YESTERDAY.

Henry Liquidation Responsible for the Weakness of the Market-All the Other Markets Suffer in Sympathy.

Chicago, Nov. 17.-Wheat closed to-day at a decline of 15c. The news was not especially bearish, but heavy liquidation, which has been characteristic of the market for several days past, again forced prices down. All the other markets suffered from the same cause, corn declining &c. oats %c and provisions 744175c.

The controlling power in the wheat trade was thoroughly established in command today. Liquidation, which has been more or less prominent for several days past, reached large proportions during the propress of the sension. The news was, for the most part, the reverse of hearish but the market acted as if all that has recently been heard about deficient crops in the world had all been authoritatively and officially contradicted and abundance re-extablished. Liverpool opened rather weak at 1/4 decline for spot wheat and unchanged for futures. But shortly after the opening here, private telegrams quoted a 1d advance in December, which resulted in considerable buying and a substantial advance. Opening prices for Decomber were from 77% to 77%, as compared with yes-terday's close of 78%. After selling at 77% for an instant, the private cables re-ferred to caused an advance to 77% 78c. Those private cables were a snare, for direst cables showed a decline at Liverpool of %d from the opening, and early buyers soon regretted their confidence. North-western receipts showed a big falling off from last year. Minneapolis and Duluth building: reported \$35 cars, as compared with 1,686 cars last year. A local news collecting agency announced that the world's visible supply had increased 7,890,000 bushels last week. This was a not inconsiderable factor near the opening in starting the selling, which became so very heavy during the

Bradstreet's figures on the visible reported a total increase of 6.832,600 bushels in the world's visible, but the small-ness of these figures, as compared with the earlier announcement, had little effect. After the advance to 78c, there was a sucsession of regular declines, until, about forty-five minutes from the close, 76% had been reached. The closing was characterized by a little more firmness. December gradually advanced to 76% 976%c, where Corn was again dull and decidedly weak,

the influences being the weakness of wheat and more liberal offerings of new wheat, Liquidation was active all day, and prices were lower from the start. May opened were lower from the start. shade lower at 28%c, declined to 27%c and closed easy at 27%c

ly steady and offerings were readily taken. Later, mainly in sympathy with wheat, the market fest off and liquidation became free. May started about 4c lower at 2346234c declined to 25c and closed easy at 2346234c Provisions were weak from the start, and the only feature developed was the general liquidation in all products. The opening was at a considerable decline, in sympathy with the weak hog market. As the press tre of offerings increased, prices declined further, closing prices being about the low est of the day. January pork closed 15c lower at \$7.50; January lard, 175c lower at \$1.97%; January ribs, 75c lower at \$3.97%.

#### Grain Notes.

Stocks of flax in store in Chicago are 1,897,549 bushels; a week ago 1,718,132 bush-els; a year ago 649,341 bushels.

The four Atlantic ports cleared for ex-port yesterday 25,600 bushels of wheat, 48,-900 packages of flour, 228,000 bushels of corn, Two steamers have been chartered at New York to load 100,000 bushels of wheat and a lot of merchandise for Australia. Stocks of wheat in the six principal Brit-sh ports on November 1 this year, report-d by Beerbohm, were 5,711,699 bushels, gainst 16,704,000 bushels on November 1, 866, and 11,495,000 bushels November 1, 1894. Bradstreet's weekly report of grain stocks, issued yesterday, showed an increase of 1,633,000 bushes of wheat in the United States, and an increase of 5,200,000 bushels in Europe and affoat. Corn decreased 1,-127,000 bushels. Oats decreased 245,000 bush-

It is said that 100 vessels have recently eft foreign ports for San Francisco and the Pacific coast on account of the good demand there for cargoes. San Francisco reported sales there of three cargoes of wheat on Saturday on Australian account, and said that drouth advices from there were sensationally bad,

A New York message says: Negotiations are under way for the charter of a steamer to take on 14,000 bushels of corn at this port for "Cork for orders," with the privilege of Bombay direct. The Bombay rate is said to be fixed at \$ shillings a marter. The shippers are believed to have prepared for this curgo by purchasing 80,000 sushels of corn and 50,000 bushels of mixed ats. It is also reported that 249,000 bushel of No. 1 hard Duluth wheat for prompt shipment to Australia has been purchased and that a cargo of flour is under negotia-

## THE WICHITA RESERVATION.

#### Pressure Being Brought to Bear on Secretary Francis to Order Its Opening.

Washington, Nov. 17 .- (Special.) Secretary Francis, of the interior department, is receiving petitions and letters from Missouri, Kansas and Oklahoma, asking that the Wichita reservation be opened to settlement. This is the reservation the late Hoke Smith refused to open to settlement, according to law, but leased to a coterie of cattlemen, who were business-like enough to employ a cousin of the secretary to handle the department end of the

It is believed that Secretary Francis will abrogate the small end of the leases and open the reservation to settlement. The Merchants' exchange, of St. Louis, has asked the secretary to set aside the Hoke Smith deal and do business. It is also known that the business interests of Kansas City have repeatedly urged opening to settlement that reservation.

#### HORSE SHOW CIRCUIT PROPOSED. A. E. Ashbrook, of Kansas City, Fath-

ering the Scheme. Cleveland, O., Nov. 17.-Cleveland will, in all probability, be the eastern point of a united circuit of horse shows. A movement having that end in view is on foot and the promoters of the local show are said to be favorably impressed with the idea. Mr. A. El. Ashbrook, editor of the Horse Show Monthly, of Kansas City, and secretary of the Herse Show Association of that city, is here to push the united cir ammitted to membership in the circuit If the scheme goes through, and a perma here, horse shows will be given annually

The flow of money to New York from the interior has been so great that there has been a sharp advance in Eastern exchange. The New York Financier says that since the election the United States treasury has received an increase of \$8,000.-600 in gold, and the New York banks as much more, making \$16,000,000 in all. Sat-urday's New York bank statement showed an increase of \$8,693,525 in the surplus serve, making it now \$23,561,129 above the 25 per cent rule. There was at the same time an increase of \$15,919,900 in deposits, \$8,296,300 in specie, \$6,497,300 in legal ten-ders and \$3,225,900 in loans. Perhaps never before did the banks in the same length of time recover so much money. Boston, Philadelphia and Baltimore also report a better supply of funds and an easy mone) market. Coming west, a much easier sit-uation is also found in the money market and the banks have accumulated funds, though the gain has been less conspicu-ous than at the East. Here at Kansas City money is easily obtainable now at 768 per cent. Shipments of currency to the coun-try light, the flow being inward rather than outward. ### Stocks and Bonds.

New York, Nov. II.-Efforts to bring about a further reaction were continued to-day, but although there was only a slight manifestation of outside interest, the get that long stocks did not come out to an important extent again disconcerted the bears and neutralized the effects of their drives. The result was a practical dead-lock at intervals to-day and a diminished volume of business. The dealings were, however, comparatively well distributed. A firm undertone prevailed the greater part of the day to the impression generally en-terralmed by holders of securities, that alrtained by holders of securities, that alcure stocks lately sold, the general business outlook and the improved monetary conditions will eventually cause a resump-tion of the upwart movement. Meanwhile the short interest is believed to be increasing steadily, and the traders as a rule ar discouraged by the character of the traffi sturns. The trading was on an irregular movement, which in most shares was con fined within a narrow range. The marke losed weak on increased activity, chiefly he result of the bear operations. The net

hanges were trivial. Railway bonds were dull and without special change. A firm undertone was appar-ent, however, and dealings were fairly well distributed. The sales were \$1.412.00. A DECREASE IN THE RECEIPTS OF CATTLE FROM THE SOUTH.

But There Has Been an Increase in the General Receipts and the Loss Has Been More Than Made Up-Personal.

While the receipts in the quarantine division this season from February 15 to November 15 fell off 46,804 cattle and calves, there has been an increase in the general receipts so far this year of 28,851 cattle and 16,668 calves. It will be seen from these figures that while there has been a loss in the Southern trade resulting from 4 shortage of cattle in Texas and the Indian Territory, that new business has been gained from other sections, and more than enough to make up the loss from the Southwest. And while the gain is not large, yet it is enough to show a healthy expansion of Kansas City's cattle trade, and is especially significant when it is re-membered that Chicago lost receipts throughout the year.

A. Moreau, of the firm of Louis Danzel & Co., Calais, France, is here studying Kan-

sas City's horse market with a view to entering into an export business from this point to France.

While his country has perhaps, more good heavy horses than any in the world, et they sell high, and it is thought that good heavy draft horses at present prices an be sent to France from here and made
